Positive Relief For Constipation

The progress of modern medi-cal science is, perhaps, no more forcefully evident than in the simplifying of many of the old time remedies of past genera-tions. For instance, the harsh catharites and violent nurrelives cathartics and violent purgatives used by our forefathers to relieve constipation are now known to be not only unnecessary but really harmful. Constipation can be more effectively relived without the discomfort and pain these old-time remedies occasion.
A combination of simple laxative herits with pepsin, sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin is most effective, yet mild and pleasant. It is absolutely free from oplates and narcotics and equally as desirable a remedy for the timest habe as for ruscel the timest babe as for rugged manhood. A free trial bottle can be obtained by writing to Dr. W. B. Caldwelf, 452 Washington St.,

What Thin Folks Should Do To Exhibit at New York. The Holmes Motor Co. will have an inusually good exhibit at the motorunusually good exhibit at the motor-boat show in New York which begins Saturday and will continue for a week, Besides a handsome cabin cruiser lifelioat built after the model of the famous S. O. S., two of the Holmes motors, a 40 and a 50 horsepower, one of them equipped with an electric self-starter and electric lighting device and the other with one of the regulation government lifeboat motors in use at many of the life saving stations in the United States and Canada, will be shown.

Thousands of people suffer from exclassive thinness weak nerves and feebic stomachs who, having tried nevertised flesh-makers, food-fads, physical
culture stunts and rub-on creams, resign themselves to lifelong ekinniness
and think nothing will make them fat.
Yet their case is not hopeless.
A recently discovered regenerative
force makes fat grow after years of
thinness, and is also unequalled for
repairing the waste of sickness or
faulty digestion and for strengthening
the nerves. This remarkable discovery
is called Sargol. Six strength-giving,
fat-producing elements of alchnowedged merit have been combined in
this peerless preparation, which is endorsed by eminent physicians and used
by prominent physicians and used
to prominent people everywhere. It
is absolutely harmless, inexpensive and
afficient. Creditors' Meeting,

is absolutely narmiess, inexpensive and difficient.

A month's systematic use of Sargoi should produce flesh and strength by correcting faults of digastion and by supplying highly concentrated fats to the blood. Increased nourishment is obtained from the food caten, and the additional fats that thin people need are provided. Lee & Osgood and other leading druggists supply Sargoi and say there is a large demand for it.

While this new preparation has given splendid results as a nerve tonic and vitalizer, it should not be used by nervous people unless they wish to gain at least ten pounds of flesh. Attended Fellowship Meeting.

Long Cut Tobacco

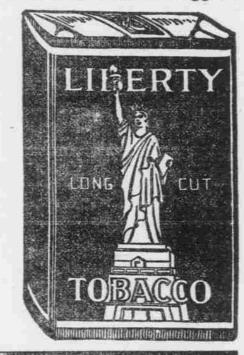

We've spent fifty years and millions of dollars creating tobacco brands. And we know that the reason LIBERTY pleases the hearty smoker or chewer is because its quality is honest and its value the biggest.

We use the purest Kentucky leaf in LIBERTY. We carefully age it for three to five years so as to bring out its full richness. The process can't be hurried. So you see no other tobacco can be the same as LIBERTY, and LIBERTY itself can never vary in quality.

No matter what kind of tobacco you may be using now, just try LIBERTY for a week, and see if LIBERTY doesn't give you greater satisfaction, day in and day out, working or resting, chewing or smoking, outdoors or in-doors. By the end of the week you'll be a permanent user of LIBERTY.
